Kazuyoshi Maeda's Advice for running the Nara Marathon! ①

(Continued on page 11)

Those aiming to finish under 4 hours

Those aiming to finish the race

4 Weeks to go [around Nov 16th]

- Take part in a half marathon (Develop race sharpness and adjust to the race's atmosphere)
- Make sure to stretch, ice, and get massages to avoid injuries.
- Do long training runs (jogging) until this period.
- Take part in a 10 km or a half marathon. Develop race sharpness and adjust to the race's atmosphere.
- Make sure to stretch, ice, and get massages to avoid injuries.

3 Weeks to go [around Nov 23th]

- Run 20km-10km at the speed you will run on the day. Plan to have your body remember the speed you will run on the day.
- Do long training runs (jogging) until this period
- Gradually move your training from quantity to quality
- Run 15km-5km at the speed you will run on the day. Plan to have your body remember the speed you will run on the day.
- Gradually decrease the amount you run.

2 Weeks to go [around Nov 30th]

- Run 15km-10km at the speed you will run on the day. (Decrease the distance)
- Add floats into your training to improve smooth running
- Add an interval approximately every 1000m. HIIT is also recommended.
- *Run slightly faster than your race speed
- *There's no need to push yourself too hard
- *Example of HIIT (20-second sprint → 10-second rest) x 8 set
- Run 10km-5km at the speed you will run on the day. (Decrease the distance)
- There's no need to push yourself if you are still tired
- Add floats into your training to improve smooth running
- *Practice making sure you don't injure yourself
- *There's no need to push yourself too hard

1 Week to go [around Dec 7th]

- Center your lifestyle around resting for the main race (Reduce training volume without compromising quality, get enough sleep and nutrition)
- Pushing yourself now will yield no benefits. It will only strain your body.
- *Before the race, you might feel anxious, but don't panic now—you've put in solid practice over the past period. Having come this far, just trust in the training you've done and in yourself as you approach the race.
- Move your diet from protein to carbohydrates
- Start filling out Condition Check Sheet (Page 5)

1 Day to go

- Light exercise (walking, light jogging)
- Have a meal rich in carbohydrates and Vitamin B family (Udon noodles, Pasta etc.)
- Get a full nights rest (6 - 8 hours)
- Finish your race preparations
- Visit the starting line and motivate yourself

Base speed Practice running at a pace that will allow you to finish within your expected time

MEMO

If you fall under categories ① to ⑤ below, please consult your primary care physician regarding your participation in the race. Under the guidance of your physician, undergo any necessary tests or treatments. If you choose to participate in the race, do so at your own responsibility.

Amended from the Health Check List for Public Marathons and Road Races, revised on April 11, 2013, by the Japan Association of Athletics Federations Medical Committee

- ① Have been diagnosed with or are undergoing treatment for heart disease (myocardial infarction, angina, cardiomyopathy, valvular disease, congenital heart disease, arrhythmia, etc.)
- ② Have suddenly lost consciousness (fainting episode).
- ③ Have experienced chest pain or dizziness during exercise.
- ④ Have a blood relative who died suddenly due to what is known as heart failure (sudden death).
- ⑤ Haven't had a health checkup in over a year.

The following ⑥-⑨ are risk factors that make you more prone to myocardial infarction and angina. If any of these apply to you, please consult with your primary care physician.

- ⑥ Have high blood pressure (hypertension).
- ⑦ Have high blood sugar levels (diabetes).
- ⑧ Have high LDL cholesterol or high triglycerides (lipid disorder).
- ⑨ have been smoking.

Your primary care physician is a doctor who manages your health and well-being. Be sure to choose a primary care physician and consult with them about various tests and race participation.

Please manage this document yourself (no need to submit). If you're not feeling well, make sure to take the necessary precautions, such as seeing a doctor.

- Fill in necessary items
- Please check your physical condition on the day of the event. If you feel unwell, please withdraw from participation.

- If at any point you do not feel well, please retire from the race immediately and be sure to notify the staff.
- Regardless of the weather, be sure to drink plenty of fluids and electrolyte beforehand and during the race to prevent dehydration.
- Doctors and nurses will be on duty at medical stations to provide first aid.
- Sweep buses, which trail behind the last runner in the race, have medical staff onboard to provide first aid (Marathon/Pair Relay Marathon).
- Sprinting for the last leg of the race places stress on the body and is dangerous. Take your time and finish the race in comfort with a smile.

Timing Chip

This event will record results using a timing chip. Please securely attach it to your shoes using the included twist tie (wire band). **Do not remove it until the race is over. Please note that if you do not wear the timing chip, your time cannot be recorded and you will be disqualified.**

- If you put your timing chip in your pocket or hold it with your hand, your time will not be recorded.
- In case your timing chip coming off during the race, ask the staff at each distance point for extra ties.

*If your shoes do not have shoelaces or velcro tapes or if you do not understand how to attach the timing chip, please come and ask at the help desk when you check in.

Map of Start Area and Venue (Sun, Dec 14th) NEW

Leaving baggage unattended or putting up tents is prohibited!
Please check in all of your belongings at the baggage hold. Baggage left in and around the event site may be treated as suspicious and disposed of. In order to ensure a safe event, we have upped our security procedures relating to suspicious objects. We ask for your understanding and cooperation in this matter.

If you find any suspicious individuals or items, please report them to the staff immediately!

**⚠️ Come by 8 am!
Line up well before the start time.**
Toilets are located around Secondary Field and the perimeter inside the runner's gate. Please be advised to enter the runner's area early as the gate becomes very crowded toward the start time.

Trash bins are consolidated into three "Garbage Stations" within the venue. There are no other trash bins in different locations.

To protect the turf, please refrain from drinking sports drinks on the grass areas of Secondary Field.

- Please place your personal belongings in the luggage bag distributed at the check-in desk and attach the baggage sticker included in the Athlete Bib packet to it.

- Please place all your personal belongings into one bag. Only one bag can be checked in per person. It is recommended runners ensure they have plenty of time and drop off their bag as early as possible. Bags cannot be accessed once they have been checked in.
- For security reasons, it is prohibited to open your luggage bag in the baggage holds area.
- When retrieving your luggage, the staff will verify your athlete bib number and baggage sticker number. Please ensure that you present both numbers when exiting the baggage holds area.
- Valuables, delicate equipment, animals and plants, breakables, etc. cannot be checked in.
- The organizers take no responsibility for the loss of any personal belongings or other items checked in.

Start

Starting times and line-up locations vary for the Marathon/Pair Relay Marathon and 10K competitions. Please be sure to check your competition, starting time and waiting area in advance.

About Pace Keepers (for Marathon) Finish Assist Runners also run with you!
They will run with the participants to finish within the following time from the starting gun.

- 3 hrs, 3 hrs 30 mins,
- 4 hrs, 4 hrs 30 mins,
- 5 hrs, 5 hrs 30 mins & Finish Assist

Pace keepers wear orange bibs and have balloons attached to them. Please use the pace keepers as a means of regulating your own pace.

About Finish Assist Runners They run to complete the race within the limit time. *They leave the course at the 1.6 km point and rejoin it in the latter half

Closing Points / Closing Time

Race	Time Limit	Closing Points
Marathon	6 hours	8 points
Pair Relay Marathon	6 hours (Cutoff time at relay point: 12:35)	8 points + Relay Point
World Heritage 10K	95 minutes	1 point (7.5km point)

- The time limit is measured based on the starting gun time.
- The official race record (eligible for awards) will be the time from each runner's crossing of the start line to crossing the finish line (net time). Depending on the start block, it may take more than 10 minutes to reach the start line after the starting gun. Even in the event of race interruptions due to emergency vehicles, no adjustments will be made to the recorded times or the closing times.

- Any runners who do not pass the closing points by the closing times will be asked to stop the race. Other than not passing all the closing points, any runner who is notably too slow, is obviously not able to reach the next closing point or finish the race on time, and/or is expected to potentially disturb traffic will be ordered to stop the race by a race official or a medical staff member.

Notes on garbage during the race

- Please throw paper cups into the trash boxes with **light blue-colored plastic bags**. The Nara Marathon recycles used paper cups.
- Please throw banana peels, candy/chocolate wrappers and plastic bags used as raincoats or against the cold into the trash boxes with **clear plastic bags**.
- Please consult staff if you wish to dispose of plastic bottles, cans or glass bottles.
- Do not dispose of any garbage in the toilets other than provided toilet paper.

Advice for Running the Nara Marathon ②

Throughout the race

Start to Finish (Marathon)

1 Enjoy the Scenery and Support

Let's run while enjoying the scenery of the ancient city of Nara. Also, the Nara Marathon has excellent volunteer support. Many people along the course will cheer you on. Let's run with a sense of gratitude, inspired by their support.

2 Take energy supplements

On the Marathon/Pair Relay Marathon course, there are 13 water stations, and for the 10K, there is one (please refer to pages 12 and 13). However, due to extended running times or, at times, limited supply, it is **recommended to bring your own energy gels, bars, or items** you are accustomed to consuming during your regular training. Consider gaining experience with eating while running, starting from your usual practice.

3 Desirable to run at a as consistent a pace as possible.

Set your target time based on your usual practice pace. Going too fast in the first half can lead to a slowdown in the latter half. Please refer to the table on page 4 for the 'average time per kilometer' of the target time.

1 Start to 10K

Let's approach the run with a 'warming up' mindset. Please note that the Nara Marathon starts downhill, so be cautious not to push too hard. Regardless of faster runners around you, try to maintain your own pace.

2 10K to 30K

Starting from the 10km mark and beyond, let's gradually shift into higher gears. Convert the cheers into strength and enjoy the scenery as you run. Please note that the Nara Marathon features a course with many 'ups and downs.' Adjust your running style for 'uphill' and 'downhill' stretches, and have fun while refreshing your mood.

3 30K to Finish

The toughest part is here. This is where the real challenge begins. Let's draw strength from the cheers and finish strong. Especially in the 30 to 35 kilometers of the marathon, you'll encounter steep hills. For beginners, it's important to maintain your own pace here rather than pushing too hard - that's the key to finishing.

Check! Choosing Running Shoes

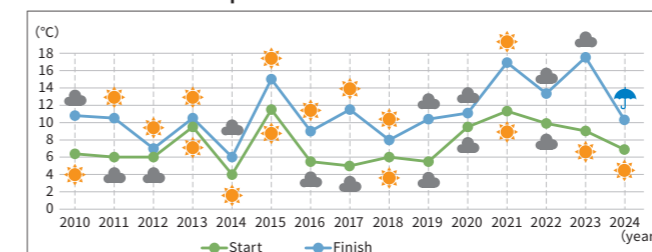

- Wear shoes specialized for running.
- Don't run races in brand-new shoes; get used to them in advance.
- Shoes with thick soles that absorb shock place less strain on your feet.
- 'Carbon-plated shoes' carry a risk of sprains and increased foot strain, so beginners should avoid them. Opt for shoes that place less strain on your feet and offer better stability.

Check! How to prevent the cold

- Sleeveless vinyl ponchos will be distributed at the runner check-in desk. Keep yours handy in your pocket so you can put it on whenever you feel cold, not just before the start.
- Petroleum jelly helps you protect against scrapes and chafing but also protect against water and keep you warm. Use it accordingly depending on the temperature and weather.

*See page 9 for information on the clothing collection boxes.

Weather and Temperature for Each Year

*The years 2015, 2021, and 2023 were very warm, but most years tend to be quite cold. Even in warm conditions, pouring water over your head can cause your body to cool down too much, leading to hypothermia or cramps, so we do not recommend it.

Check! Dealing with Problems during the Race

- What if you get a stomachache?
Slow down and take a deep breath.
- What if you get a cramp in the leg?
Stop running and stretch your leg.

Precautions against cramps!

- Do not let your legs cool. (Petroleum jelly helps your legs keep warm.)
- Stretch well before the race.
- Eat foods rich in potassium and magnesium (such as bananas, natto, avocados, spinach, and seaweed).
- Do not rush in the first half of the race and keep a moderate pace.

Check! How to rehydrate during the race

- Take fluids frequently before you feel thirsty.
- In addition to water, make sure to replenish electrolytes and energy with sports drinks or salt. From the 2023 event onward, salt is available at all water stations starting from the 4th station.
- Water stations will be more crowded towards the front, so make things smoother by taking a cup at a later table.
- Make sure to step straight out of the course once you get a cup.
- It's a good idea to crush the top of the paper cup (making it sharp) and drink it from there.
- 100-150 ml of water should be enough. (Drinking it a lot gives you stomachache, causes digestion problems and water intoxication.)
- Take off your gloves when taking a paper cup. (Wet gloves will make your hands cold and cause you to lose energy.)

Nara Marathon 2025 Q&A

Q1 Is it possible to have someone complete the runner check-in for me?

A As a general rule, we ask that the runner themselves check in, but a proxy can also check in. Please send the 2D reception code issued in accordance with the "Notice on Issuance of Athlete Bib Voucher" to your proxy and have them present it at runner reception. You can also bring multiple vouchers at once. When issuing your exchange voucher, be sure to register someone who can be contacted on the day of the race as an emergency contact.

Note: Regardless of who completes the check-in, **SUBSTITUTE PARTICIPATION IN THE RACE IS NOT ALLOWED.** The emergency contact is defined as a person who may be contacted by telephone in case of an emergency, such as sickness or injury that may occur during the race.

Q2 I don't know how to issue the race bib exchange voucher or am unable to issue it.

A Before the event, please contact the Entry Center. On Sat, the 13th, please show the email screen of the 'Athlete Bib Exchange Ticket Guide' at the reception help desk. For those who do not have a smartphone, tablet, or computer, a printed copy will be provided on-site for a printing fee of 200 yen.

Q3 How are the starting blocks determined?

A The starting position is assigned based on the expected time provided at the time of application. For group entries with friends or family entries, each person's block is assigned according to their respective expected times. Moving to a rear (slower) block is possible, but moving to a front (faster) block is not allowed.

Q4 Can I drop out of the race?

A Yes. Please inform the nearest staff or volunteer. Staff wearing red apparel are medical/support staff. If you withdraw from the race or reach the cut-off time for the next checkpoint, please move to the next checkpoint or the finish area either by the sweep bus following the last runner or on foot.

Q5 Do you issue finisher's certificates on race day?

A There will be no paper certificates issued on the day of the event. Only a web certificate will be provided. A printed certificate will be sent by mail for a fee for those who wish to receive. It can be applied at the General Information desk (accepted only on the day of the event).

Q6 What size is the luggage bag to be checked in?

A Only one 45L transparent plastic bag per person will be accepted for storage. We cannot accept valuables, confidential equipment, living organisms, or fragile items. These bags are distributed at the runner check-in desk. Please attach the "Baggage Bag Sticker" included with your athlete bib packet and deposit your bag.

Q7 I have chosen to withdraw from the race. Can I receive the entry prize at least?

A At Runner Check-in, please present the QR code on your athlete bib exchange voucher to receive your participation gift (proxy check-in is also permitted).

Q8 If I am unable to participate in the event or forget to return my timing chip after the race, what should I do with the timing chip?

A Please send it by standard mail to the Nara Marathon Organizing Committee (See page 14).
